

PORTABLE FUEL FILTERS

YOUR TOOL FOR PURE FUEL

Dirt and water are the top reasons for fuel related engine failure

**DIRTY FUEL IN
PURE FUEL OUT**

Pure Fuel Makes Any Engine Run Better and Last Longer

Dirt and water are practically unavoidable in stored fuel, causing corrosive acids, electrolysis, rust and more. These contaminants can plug filters, corrode components, decrease efficient combustion and cause engine shutdown or system failure

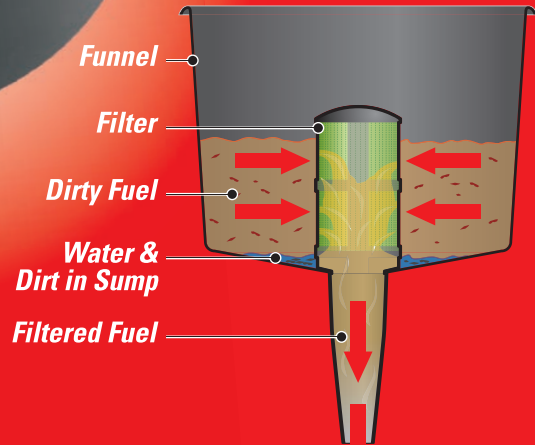

You can combat these problems by refueling with a Portable Fuel Filter. Protect your engine by using this innovative product every time you transfer fuel to your tank

UNIQUE FILTER TECHNOLOGY

When fuel is poured through a Portable Fuel Filter, water and debris will not pass through the filter's fluoropolymer-coated stainless steel filter. Only filtered fuel flows through to your engine, improving its efficiency, durability and proper operation. The sump area collects the deflected water and debris for proper disposal

Small Conductive Portable Fuel Filter

Flow Rate - 2.5 Gallons per minute
Diameter - 3.5 Inches
Height - 6 Inches

F1C - 12 pcs. Open Stock
